EDUCATION

Sri Indu Institute of Engineering and Technology Bachelor of Engineering(Data Science); GPA: 8.00	Hyderabad, India June 2023 - August 2026
Mother Teresa Institute of Science and Technology Diploma in Electrical and Electronics Engineering ; GPA: 8.25	Sathupally, India June 2021 - August 2023

SKILLS SUMMARY

- **Languages:** Python, SQL, HTML,CSS,BOOTSTRAP
- **Frameworks:** Pandas, Numpy, Scikit-Learn, Matplotlib,NLTK,Data Science,Machine Learning,
- **Tools:** Power BI, Excel, PowerPoint, Tableau, MySQL, SQLite
- **Platforms:** Jupyter Notebook, Visual Studio Code,Github,Kaggle,Google Colab,Vertex Ai
- **Soft Skills:** Good communication , an attitude to learn & problem-solving mindset

WORK EXPERIENCE

DATA ANALYST INTERN ELEVATE LABS	April 21 - May25
○ Streamlined data collection and reporting procedures, reducing processing time by 20% enhancing efficiency. ○ Implemented process improvements and automation solutions, resulting in 15% increase in productivity. ○ Collaborated with 3+ cross-functional teams to gather requirements, define project scopes, and ensure alignment with business objectives, fostering effective teamwork and project success. ○ Produced 15+ comprehensive reports and presentations summarizing findings and recommendations, facilitating clear communication with stakeholders and driving actionable outcomes.	

PROJECTS

- **SMS Spam Classifier | Streamlit + Scikit-learn | 96.59% Accuracy**
 - Use NLTK for SMS text preprocessing and TF-IDF feature extraction from 5,572 real messages (UCI dataset)
 - Train Logistic Regression model achieving 96.59% accuracy, 100% precision for spam/ham classification
 - Deploy production-ready Streamlit web app with real-time predictions, confidence scores, and confusion matrix visualization
- **Breast Ultrasound Classification | TensorFlow + Streamlit | VGG16/ResNet50**
 - Use BUSI dataset for preprocessing/resizing 3-class ultrasound images (normal/benign/malignant) with data augmentation
 - Train transfer learning CNNs (VGG16, ResNet50) via feature extraction + fine-tuning with Grad-CAM interpretability
 - Deploy interactive Streamlit dashboard comparing models with real-time predictions, confusion matrices, and ROC curves
- **ZenSync - Real-Time Facial Expression Detection and Analysis**
 - Developed a full-stack web application using Python Flask and MediaPipe for real-time facial expression recognition with 80%+ accuracy.
 - Implemented advanced facial landmark analysis for emotion detection across seven emotions: happy, sad, angry, surprise, fear, disgust, and neutral.
 - Integrated dynamic real-time processing with OpenCV and TensorFlow, achieving under 500ms latency per frame.

CERTIFICATES

Data Analytics (Infosys Spring Board)	JUNE 2025
○ Learned about the data ecosystem, including the ETL process and big data basics ○ Mastered data gathering, identification, and cleaning for analysis preparation.	
Exceptional Performance Award – Code Vipassana Season 9 (Google Developer Groups Cloud Kochi)	2025
○ Recognized for outstanding hands-on expertise in building agentic applications using cloud databases, serverless architecture, and open-source integrations on Google Cloud. ○ Demonstrated strong technical mastery and problem-solving skills during intensive, project-based cloud learning sessions.	
Cloud Computing,AWS,AZURE(Udemy)	December(Ongoing)
○ Demonstrated skills in cloud services integration, infrastructure automation, and security best practices using AWS.
